

Job Seekers

**Objective:**

- To provide you with the confidence and skills that will ensure the best possible outcome when entering the job market for the first time or seeking a new challenge.

Outcomes:

- Confirm true interests, skills and personality preferences, ensuring confidence in your choice.
- Explore possible occupations and identify which are most suitable.
- Evaluate job opportunities.
- Design an action plan.
- Prepare cover letters and resume that get results.
- Develop an understanding of what employers look for in an employee.
- Sharpen your interview technique and personal marketing skills.

Duration:

- The length of consultation will depend on the extent of support requested.

Process:

- The interview will involve the completion of identifier tests, the setting of goals, the identification of suitable job opportunities and appropriate applications, development of action plans and an in-depth understanding of the job market and how it operates.
