

## Tertiary Students

**Objectives:**

- Review career planning process to assess your current situation and to determine how your interests may have changed and why there is dissatisfaction with your current course.
- Provide course options which will ensure the correct study at the most suitable institution is undertaken.
- Maximize the benefit of past study and develop a plan for future success.

**Student Consultation:**

- Overview of the career planning process.
- Identification of values, interests, academic and social skills.
- Understanding of personality and how it impinges on career choices.

**Outcomes:**

- Identifying career goals.
- Researching suggested occupations.
- Identifying the most suitable institutions and their courses for the achievement of your goals

**Duration:**

- An extensive initial interview is required.

**Process:**

- The interview will involve the completion of a range of identifier tests, the setting of goals, the identification of suitable courses and places of study, and the development of action plans.
